Products/Services: We have designed a line of unique crop lifters that work in a variety of crops and a variety of crop conditions. Most of Flexxifinger's crop lifters utilize a replaceable nylon finger which is gentle on the crop and very gentle on combines. The pulse lifters and the Heavy Duty lifters have interchangeable nylon fingers which serve different purposes. All of these lifters are easily mounted on and removed from headers using our patented QD™ (quick attach/detach) system. As well as the lifters, we manufacture other header accessories. Flexxifinger, The Choice of Mechanized Farmers Around the World.

Email: SIMA@imexmgmt.com

Products/Services: The 74th edition of SIMA, a biennial trade show held at the Paris Nord Villepinte Exhibition Center in Paris, France, is scheduled for February 27 - March 3, 2011. SIMA, the Paris International Agri-business Show, is the largest international farm equipment trade show in the world. The past session in 2009 gathered 1,323 exhibitors (50% from France and 50% International) on more than 2 million sq. ft. of indoor exhibit space and 135,045 trade visitors (with one out of every four coming from outside of France). SIMA is held during the same week as SIA, the public Paris International Agriculture Fair taking place at the Paris Expo Porte de Versailles Exhibition Center. SIMA trade visitors are provided with free shuttles between the two exhibition centers. The success of both events (overall around 800,000 people come along to visit these two major events) has confirmed Paris as a high caliber meeting place for agricultural industry professionals from all over the world.
